

Alexey V. Pichugin

Middle php developer

Self-educated in web by working on pet-projects. My commercial experience in it-field since 2019, mostly as programmer **php** suite/sugar crm with **devOps** functions. Basically my role was to writing understandable code using the **OOP** principles of **SOLID** and **MVC**, bug fixing and legacy code improvements, creating new functional and business process automation, composing complex **sql**-queries, both independent work and in a **SCRUM**-team on sprint tasks. For the last two years I worked remotely. Ability to work independently and as part of a remote team.

I am looking for an opportunity to join a professional team in order to continue developing and growing as an IT specialist.

English - B1. Just need more practice to speak confidently.
